INTRODUCTION.—Scientific Survey 1

ORIGINAL ARTICLES.

The Coal Resources of Great Britain. *With a Quarto Map of Britain, showing the Coal Districts, and 3 Woodcuts.* By Edward Hull, B.A., F.G.S., of the Geological Survey of Great Britain 24

Oceanic Telegraphy :—

I. The Atlantic Deep-Sea Bed and its Denizens. *With Lithographic Plate of Foraminifera, &c.* By Dr. G. C. Wallich, F.L.S. 36

II. The Atlantic Cable and its Teachings. By William Crookes, F.R.S. 44

The late Earthquake, and Earthquakes generally. By Robert Mallet, C.E., F.R.S. 53

Lighthouse Illumination by Magneto-Electricity. By Dr. J. H. Gladstone, F.R.S. 70

The Conservation of Force applied to Physiology. In Two Parts. By Dr. W. B. Carpenter, F.R.S.. F.L.S. F.G.S., Registrar of London University, &c. Part I. The Relations of Light and Heat to the Vital Forces of Plants. *One Woodcut* 76

The Reputed Fossil Man of Neanderthal. *With Two Lithographic Plates.* By Professor William King, Queen's University, Ireland . 88

CHRONICLES OF SCIENCE.

I. Agriculture 98

II. Astronomy 104

III. Botany 110

IV. Chemistry 115

V. Geology and Palæontology. *Small Woodcut* 119

VI. Microscopy. 3 *Woodcuts* 129

VII. Mining, Mineralogy, and Metallurgy. *Engraved Plates and Woodcuts* 137

PAGE

The Birds of India 176

1. 'The Birds of India:' being a Natural History of all the Birds known to inhabit Continental India; with Description of the Species, Genera, Families, Tribes and Orders, and a Brief Notice of such Families as are not found in India; making it a Manual of Ornithology specially adapted for India. By T. C. Jerdon, Surgeon-Major, &c. Calcutta, 1862. Vols. I. and II. pt. 1.
2. 'Illustrations of Indian Ornithology.' By T. C. Jerdon. Madras, 1844. 1 vol. 4to.

Natural History on the Amazons 181

1. 'The Naturalist on the River Amazons.' By Henry Walter Bates, 2 vols. 8vo. London: John Murray, 1863.
2. 'Contributions to an Insect Fauna of the Amazon Valley; *Lepidoptera, Heliconidæ*.' By Henry Walter Bates. ('Linnæan Transactions,' vol. xxiii. part 3, page 495.)

The Great Meteor of 1863. *With a Woodcut* 190

'Die grosse Feuerkugel, welche am Abende des 4 März, 1863, in Holland, Deutschland, Belgien, und England gesehen worden ist.' Von Dr. Ed. Heis, Professor der Mathematik und Astronomie an der Königl. Akademie zu Munster. Halle: H. W. Schmidt. 1863.

(The Great Fireball which was seen on the evening of the 4th March, 1863, in Holland, Germany, Belgium and England. By Dr. Ed. Heis of Halle. H. W. Schmidt. 1863.)

Mills and Millwork 194

By Wm. Fairbairn, Esq., C.E., LL.D., F.R.S., F.G.S., &c. 2 vols. Longmans.

Local Floras 200

1. 'Flora of Surrey; or, a Catalogue of the Flowering Plants and Trees found in the County.' By James Alexander Brewer. London: J. Van Voorst.
2. 'Flora of Marlborough; with Notices of the Birds and a Sketch of the Geological Features of the Neighbourhood.' London: J. Van Voorst.

NOTES AND CORRESPONDENCE.

On the Highest Magnifying Power of the Microscope yet employed. By Lionel S. Beale, F.R.S., King's College, London . . . 205

Scientific Education and Natural-History Science in the Kingdom of Italy. From D. T. Anstead, F.R.S. 206

Dahomey: Its People and Customs. By Jules Gérard . . . 209

List of the Gold Medallists of the United Kingdom, in connection with the Department of Science and Art, South Kensington . 211

Books received for Review 212

CONTENTS OF No. II.

OF THE

QUARTERLY JOURNAL OF SCIENCE,

APRIL, 1864.

PAGE

ORIGINAL ARTICLES.

The Mammals of Madagascar. *With Lithographic Plate of Typical Mammals, by Wolf.* By Dr. Sclater, M.A., F.R.S., Secretary of the Zoological Society 213

The Solar Spots. *With Lithographic Plate of Sun Spots, &c.* By Sir J. W. F. Herschel, Bart., K.H., D.C.L., F.R.S. 219

Steam Navigation: Its Rise, Progress, and Prospects. *With Copperplate Engravings of the 'Great Eastern,' 'Persia,' 'Great Britain,' and 'Great Western,' by Humphreys.* By Martin Samuelson, Member of the Institute of Civil Engineers 235

The Fossil Skull Controversy: Human Crania allied in Anatomical Characters to the Engis and Neanderthal Skulls. *With Lithographic Plate.* By William Turner, M.B., Edinburgh University, F.R.S.E. 250

The Conservation of Force applied to Physiology. Part II. (conclusion). The Relations of Light and Heat to the Vital Forces of Animals. By W. B. Carpenter, M.D., F.R.S. 259

On Milk, and Dairy Arrangements. *With Five Woodcuts (Microscopical Appearances of Milk).* By Dr. Aug. Voelcker, Consulting Chemist to the Royal Agricultural Society of England . . 267

PROCEEDINGS OF THE METROPOLITAN SOCIETIES.

1. The Royal Astronomical Society. *Small Woodcut* . . . 280
2. The Chemical Society 287

REVIEWS.

The Story of the Guns 362

'The Story of the Guns.' By Sir James Emerson Tennent, K.C.S., LL.D., F.R.S. 1 vol. 8vo. Longmans.

The Industrial Resources of the North Country 368

1. 'The Industrial Resources of the District of the Three Northern Rivers —the Tyne, Wear, and Tees,' &c. Edited by Sir William Armstrong, J. Lowthian Bell, Esq., J. Taylor. Esq., and Dr. Richardson. Longman, London; Reid, Newcastle.
2. 'A History of the Trade and Manufactures of the Tyne, Wear, and Tees,' &c. Second Edition. Spon, London; Lambert, Newcastle.
3. 'A Handbook to Newcastle-on-Tyne.' By the Rev. J. Collingwood Bruce, LL.D., F.S.A. Longman, London; Reid, Newcastle.

Fresenius' Chemical Analysis 371

'A System of Instruction in Qualitative Chemical Analysis.' By Dr. C. Remigius Fresenius. Edited by J. Lloyd Bullock, F.C.S. Sixth edition. 1864. London: John Churchill & Sons, New Burlington Street.

PAMPHLETS AND MINOR PUBLICATIONS.

The Power of God in His Animal Creation. (Exeter Hall Lecture.) *Illustrated with Woodcuts.* By Professor Richard Owen, D.C.L., F.R.S. (James Nisbet & Co.) 374

On the Negro's Place in Nature. By James Hunt, Ph.D., F.S.A., &c., President of the Anthropological Society of London. Published for the Society. (Trübner & Co.) 376

Programme de la Société Batave de Philosophie Expérimentale de Rotterdam. G. & C. Van Reyn, Rotterdam. 377

Spectrum Analysis 379

1. 'De Spectraal-Analyse, &c.'—On Spectrum Analysis, &c. By H. C. Dibbits. Rotterdam: E. H. Tassemeijer, 1863.
2. 'Des Phénomènes Lumineux que présentent quelques Flammes, et en particulier celle du Cyanogène, et de l'Acetylène, &c.' Par M. Morren. Marseilles: Arnaud & Co., 1863.

Chemical Formulæ 380

3. 'Tables of Chemical Formulæ,' arranged by W. Odling, M.B., F.R.S. &c. &c. London: Taylor & Francis, 1864.

NOTES AND CORRESPONDENCE.

PAGE

Silvered Glass Telescopes, and Celestial Photography in America. *Illustrated.* From Henry Draper, M.D., University of New York. 381

The Brazilian Coal Fields. *Illustrated.* By Edward Hull, B.A., F.G.S. 387

Linseed and Malt as Cattle Food. J. Chalmers Morton, Editor of the Agricultural Cyclopædia 390

A new Method of Nature Printing from Steel. *Illustrated.* H. C. Sorby, F.R.S. 392

Books, Pamphlets, &c., Received for Review 393

Proceedings of Scientific Societies Received 394

AMALGAMATION

OF THE

EDINBURGH NEW PHILOSOPHICAL JOURNAL

WITH THE

QUARTERLY JOURNAL OF SCIENCE.

THE purchase of the Copyright of the EDINBURGH NEW PHILOSOPHICAL JOURNAL, and its fusion with this Journal having been negotiated by the Publishers, notice is hereby given that the publication of the Edinburgh Journal will cease with the appearance of its April number, and its EDITOR, PROFESSOR J. H. BALFOUR, F.R.S., Sec. R.S. Edin., will henceforth give his active co-operation and support to the QUARTERLY JOURNAL OF SCIENCE, which will continue to be published under its present Title.

CONTENTS OF No. III.

OF THE

QUARTERLY JOURNAL OF SCIENCE,

INTO WHICH THE

EDINBURGH NEW PHILOSOPHICAL JOURNAL

IS NOW MERGED.

JULY, 1864.

PAGE

ORIGINAL ARTICLES.

On the Physical Aspects of the Moon's Surface. *With Quarto Plate* (*Lunar Craters*) *and Four Woodcuts.* By James Nasmyth . 395

On Gun-Cotton. *With Page Plate, illustrating its Explosive Effects.* By John Scott Russell, C.E., F.R.S. 401

On Brackish-Water Fossils of Crete: being Illustrations of the Characters of Fluviatile, Lacustrine, and Estuarine Formations. *With Page Illustration and Woodcut.* By H. M. Jenkins, F.G.S., Assistant-Secretary of the Geological Society 413

On the History and Uses of the Ophthalmoscope. By T. Nunneley, F.R.C.S.E., &c. 422

Acclimatization. By Cuthbert Collingwood, M.A., M.B. Oxon., F.L.S. 427

Copper Mining in Tuscany. Account of the Copper Vein occurring in Tertiary Volcanic Rock worked at the Mine of Monte Catini in Tuscany. By D. T. Ansted, F.R.S. 433

CHRONICLES OF SCIENCE.

I. Agriculture 439

II. Astronomy, including the Proceedings of the Royal Astronomical Society 444

III. Botany and Vegetable Physiology 452

IV. Chemistry, including the Proceedings of the Chemical Society 457

V. Geography, including the Transactions of the Royal Geographical Society, and Notice of the Ordnance Survey of Great Britain and Ireland 462

VI. Geology and Palæontology, including the Proceedings of the Geological Society 474

XUM

CHRONICLES OF SCIENCE—*continued.*

PAGE

VII. Microscopy, including the Proceedings of the Microscopical Society 483

VIII. Mining, Mineralogy, and Metallurgy. *Two Woodcuts* . . 486

IX. Physics: Optics, Heat, Electricity 497

X. Sanitary Science 506

XI. Zoology and Animal Physiology, including the Proceedings of the Zoological Society of London 510

XII. Chronicle of Recent Scientific Progress in America. By Henry Draper, M.D., Professor of Natural Science in the University of New York. *Two Woodcuts* 519

REVIEWS.

Metallurgy 525

'The Art of Extracting Metals from their Ores, and adapting them to various Purposes of Manufacture.' By John Percy, M.D., F.R.S. Vol. I., 'Fuel, Fire-clays, Copper, Zinc, Brass, &c.' Vol. II., 'Iron and Steel.' Illustrated. John Murray.

Comparative Anatomy and Classification 534

'Lectures on the Elements of Comparative Anatomy: On the Classification of Animals, and on the Vertebrate Skull.' By Thomas Henry Huxley, F.R.S., Professor of Natural History, Royal School of Mines, &c. Churchill & Sons.

Atheism and Science. 545

'Force and Matter.' Empirico-philosophical Studies, intelligibly rendered; with an additional Introduction expressly written for this edition by Dr. Louis Büchner, Hessen-Darmstadt. Edited from the last edition of 'Kraft und Stoff,' by J. Frederick Collingwood, F.R.S.L., F.G.S. Trübner & Co.

The Microscope 555

1. 'An Elementary Text-book of the Microscope,' &c. By J. W. Griffith, M.D., F.L.S *Twelve Coloured Plates.* Van Voorst.
2. 'On Mounting of Microscopic Objects.' By Thomas Davies. Hardwicke.

The Ophthalmoscope and Ophthalmoscopic Photography . . 559

1. 'Ophthalmoscopic Surgery (a Manual of): being a Treatise on the Use of the Ophthalmoscope.' By Jabez Hogg, F.L.S., &c. Third edition, with Chromo-lithographs. Churchill & Sons.
2. 'A New Ophthalmoscope for Photographing the Posterior Internal Surface of the Living Eye,' &c., &c. By A. M. Rosebrugh, M.D. Reprinted from the 'Canadian Journal,' March, 1864.

Elementary Chemistry 561

'Manual of the Metalloids.' By James Apjohn, M.D., F.R.S., M.R.I.A., Professor of Chemistry in the University of Dublin. (One of Galbraith and Haughton's 'Scientific Manuals.') Longman & Co.

XUM

REVIEWS—*continued.*

PAGE

Botanist's Guides 567

1. 'Flora of Ulster, and Botanist's Guide to the North of Ireland.' By G. Dickie, A.M., M.D., F.L.S., Professor of Botany in the University of Aberdeen. Lovell Reeve; Aitchison, Belfast.
2. 'Botanist's Guide to the Counties of Aberdeen, Banff, and Kincardine.' By G. Dickie, A.M., M.D. A. Brown & Co., Aberdeen.

British and American Conchology 570

1. 'British Conchology; or, an Account of the Mollusca which now inhabit the British Isles and the surrounding Seas.' Vol. II., 'Marine Shells: comprising the Brachiopoda and Conchifera, from the Family of Anomiidæ to that of Mactridæ.' By John Gwyn Jeffreys, F.R.S., F.G.S., &c. John Van Voorst.
2. 'Observations on the Genus Unio: together with Descriptions of New Species, their Soft Parts and Embryonic Forms in the Family Unionidæ.' By Isaac Lea, LL.D., President of the Academy of Natural Sciences, Philadelphia. *Ten Plates.* Printed for the author. Philadelphia.

PAMPHLETS.

The Colossal Bird of Madagascar 572

'A Paper upon the Egg of the Æpyornis Maximus.' By George Dawson Rowley, M.A. Trübner & Co.; T. Page, Brighton.

Spectrum Analysis 573

'Instruction Pratique sur l'Analyse Spectrale:' comprenant: 1. La Description des Appareils; 2. Leur Application aux Recherches Chimiques; 3. Leur Application aux Observations Physiques; 4. La Projection des Spectres. Par M. Louis Grandeau. Paris: Mallet-Bachelier.

NOTES AND CORRESPONDENCE.

Recent Contributions to Natural History and Ethnology in France. 1. Pasteur on Ferments; 2. Tremaux on the White and Black Races in Africa; 3. Lartet and Christy on Pre-historic Human Remains. By Th. Lacaze Duthiers. (Paris.) *Three Woodcuts.* 575

Improved Machinery for Boring Rocks. By George Low, Engineer. (Newark.) *Five elaborate Woodcuts.* 582

Books, Pamphlets, &c., Received for Review 585

Proceedings of Societies Received 587

CONTENTS OF No. IV.

REVIEWS.

The Science of Language 715

1. 'Lectures on the Science of Language,' delivered at the Royal Institution of Great Britain, in February, March, April, May, 1863. Second Series. By Max Müller, Fellow of All Souls College, Oxford, Correspondent of the Institute of France. London: Longmans. 1864.
2. 'Philological Papers.' By J. A. Picton, F.S.A., President of the Literary and Philosophical Society of Liverpool. 1864. (Printed for private circulation only.)

A History of the Spiders of Great Britain and Ireland 725

By John Blackwall, F.L.S. Two Parts, 4to. 1861–4. (Ray Society.)

Popular Works on Botany 728

1. 'Rambles in Search of Wild Flowers, and How to Distinguish them.' By Margaret Plues. 'Journal of Horticulture' Office. London. 1863.
2. 'Rambles in Search of Flowerless Plants.' Same Authoress and Publishers. 1864.

PAMPHLETS.

On Vitality 729

By the Rev. H. H. Higgins, M.A. Read before the Liverpool Literary and Philosophical Society.

Natural History in Jena 731

'Jenaische Zeitschrift für Medicin und Naturwissenchaft.' Leipzig: Engelmann. 1864.

The Flora of the Carboniferous Epoch of Nova Scotia 732

By J. W. Dawson, LL.D., F.R.S., Principal of McGill College, Montreal.

THE BRITISH ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE (1864).

The Meeting at Bath 733

The President's Address 735

Physics (Section A) 740

Phillips on the Physical Aspect of the Sun.—Miller and Huggins on Spectra of Heavenly Bodies.—Claudet on Photo-sculpture.

Chemistry (Section B) 742

President's Address.—Daubeny on the Bath Thermal Waters.—Report of the Gun-cotton Committee.—Miller on Wheal Clifford Hot Spring.—King on the Frescoes in the Houses of Parliament.—Field on Tin Ore, &c.—Spence on Copper Smelting.—Papers by Herapath, Catton, Paul, Phipson, and Machattie.

BRITISH ASSOCIATION—*continued.*

PAGE

Geology (Section C) 746

Phillips on a Cranium of the Stone Period.—Sanders on Bristol Coal Fields.—Sorby on Metallic Meteorites.—Browne on Ice Caves.—Moore on the Palæontology of Frome.—Stoddart on Geology of Clifton.—Randell on Geology of Bath.—Tristram on that of Palestine.

Zoology and Botany (Section D) 749

President's Address.—Galton on Domestication of Animals.—Gibb on the Larynx of the Negro.—Crisp on Anatomy of Quadrumana.—Tristram on Ornithology of Palestine.—Cobbold on Entozoa.—Davy on Salmonidæ.—Buckland on the Oyster.—Lankester on the Earthworm.

Physiology (Sub-section D) 751

President's Address.—Turner on Nutrient Arteries for Lungs.—Foster on Muscular Irritability.—Herapath on Indigo in Pus.—Davy on Temperature of Sexes.—Gibb on Action of Bromides of Lithium, Zinc, and Lead.—Hayden on Fat and Sugar as Respiratory Food.—Smith on Nutritive Principles of Food.

Geography and Ethnology (Section E) 754

Burton on Dahomey.—Spruce on the Purus.—Bates on the Amazons.—Dr. Livingstone's Communications.

Mechanical Science (Section G) 756

Sorby on Photographing the Structure of Metals.—Selwyn and Fairbairn on Submarine Telegraphy.

NOTES AND CORRESPONDENCE.

Additional Note on the Neanderthal Skull. *Two Woodcuts.* By William Turner, M.B. 758

On the Septa and Siphuncles of Cephalopod Shells. By Harry Seeley, F.G.S. 760

On the Existence of the Reindeer and Aurochs in France during the Historic Period. By Rev. C. W. Kett 762

The Gold Medallists of the Science Examinations (May, 1864), and Science Instruction by the State 763

BOOKS, PAMPHLETS, &c., RECEIVED FOR REVIEW 765

PERIODICALS, AND PROCEEDINGS OF SOCIETIES RECEIVED . . . 766
